

# The Probity Advantage — Already at Work

Probity Medical Transcription provides transcription expertise to a variety of healthcare facilities and providers nationwide. Our client list includes healthcare systems, acute care hospitals, multi-specialty clinics, physician groups and more.

**“ Probity has saved us money while significantly increasing our service level. ”**

Outsourcing 100% of its transcription needs to Probity, this client’s projected savings of \$500,000 over the initial term of the contract are on target. The elimination of expensive dictation systems and maintenance, along with the removal of HR costs associated with a medical transcription staff (all of whom were offered employment with Probity), have contributed to the cost savings.

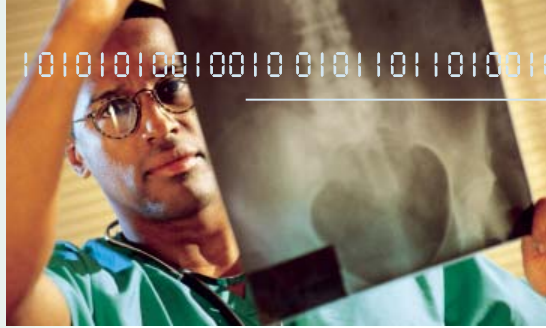

**“ Many patients seen in the hospital or emergency room require follow-up the next day. With Probity, the reports are consistently available when we need them. ”**

Probity Medical Transcription’s 24/7 transcription processing provides timely, accurate information critical to proper treatment of patients. Our expertise and leading edge technology facilitate the availability of up-to-date medical records essential to the continuity and quality of patient care.

**“ Probity has kept their promise to remove the day to day headaches of transcription. ”**

Not only does Probity relieve the troublesome issues associated with hiring, training and properly staffing round-the-clock MT’s, but our advanced technology eliminates potential HIPAA concerns related to tape based dictation and transport. And the reliability of our solutions means no more downtime to fix, update or change dictation systems.

# Experience the Difference for Yourself

Comprehensive technology, strong financial resources, an extensive U.S.-based transcriptionist pool, and unparalleled expertise make Probity Medical Transcription the ideal solution to your transcription needs. By outsourcing your transcription and document management functions to Probity, you'll get:

- > State of the art technology that provides a seamless workflow sequence from dictation to the patient's medical record
- > Flexibility to integrate with your systems, utilizing HL7 protocols
- > Smooth implementation with virtually no workflow interruption or transition issues for end users
- > Prompt, accurate transcription Turn-Around-Time (TAT)
- > Highly experienced medical transcriptionists assigned by specialty for fluency and expertise in every field
- > Exclusively U.S.-based transcriptionists for utmost patient record security as well as HIPAA compliance
- > Electronic signature, automated printing and fax distribution capabilities to increase efficiency and reduce administrative tracking
- > Transparent billing — straightforward and easy to understand to take the mystery out of transcription billing
- > Adaptability to designate TAT requirements by department, report type and other variables
- > Consultative services to help you establish best practices for cost effective transcription

## About Probity

Established by David A. Plummer, a long-time veteran and highly respected leader in the medical transcription industry, Probity Medical Transcription works with clients nationwide to provide high quality, reliable medical transcription. Based in Central Pennsylvania, the company prides itself on the expertise of its proficient, professional staff throughout the United States.

**“With Probity, I can e-sign the morning’s dictation that afternoon...and access up-to-date patient records wherever the patient is seen.”**

Probity Medical Transcription is committed to providing medical transcription and document management services at the highest professional and technologically advanced level, and to support that goal by providing premium, uncompromised customer service to its clients.
